

Square supply diffusers

AKP

Description

The AKP square supply diffusers are compatible with low- and medium-pressure ventilation as well as A/C air supply and exhaust ducts. They can be used in steady and variable air flow systems. The temperature of the air supplied can be lower by up to 12°C than the indoor temperature. This enables using AKP diffusers in cold storage rooms. The recommended installation orientation is in the ceiling plane.

Material: galvanized steel sheet

Finish: powder-coated

Standard colours: RAL 9010

All RAL palette colours are available on request.
